TO: Stewart's Creek Sewer Extension Project Abutters

After extensive study, the Town of Barnstable completed its Comprehensive Wastewater Management Plan (CWMP). The CWMP, under development for over 10 years, provides a blueprint for addressing the town's wastewater management needs. A principal goal of the CWMP is to address wastewater-related problems, which have degraded drinking water and water quality throughout the town, including Areas of Concern (AOC) and Zones of Contribution for drinking water wells. The CWMP details the sources of wastewater problems which impact on water quality and natural resources, and evaluates the range of alternatives to mitigate the problem. One of the final recommendations of the CWMP is to extend the wastewater collection system (sanitary sewers). The CWMP can be viewed on the Town's website at:

<http://www.town.barnstable.ma.us/PublicWorks/WaterPollutionControl/FinalWastewaterplan.asp>

The Town is in final design of sanitary sewers for the initial phase of the collection system expansion and waterline upgrading. The first phase of the expansion will involve a number of public roads (Ocean Ave., Keating Road, Houghton Rd., Studley Road, Stetson St., Seabrook Rd., and Woodbury Ave.) and a number of private roads (Stetson Lane, Nautical Rd., Murray Way, Janice Lane, Dumont Dr., part of Studley Rd. and Woodbury Ave.).

Your property abuts one of the private roads listed above. Under Massachusetts General Law Chapter 187, Sections 5, property owners who abut a private way have the right to request that public utility services, including sewer and water, be installed to service the property. The enclosed *Request for the Construction of a Sewer Main and Water* form will provide the Town and its contractors the necessary access to install the sewers and water in the private road.

The Town is working under an accelerated time schedule to ensure access to Federal stimulus funds to help offset local costs. Please sign, date and return the enclosed card within 7 days.

Questions about this sewer and water project may be directed to Barnstable Department of Public Works at (508)862-4090 or via email at [denise.geoffrion@town.barnstable.ma.us](mailto:denise.geoffrion@town.barnstable.ma.us)

REQUEST FOR THE CONSTRUCTION OF A SEWER MAIN & WATER

The following owner(s) at the address listed below

[REDACTED] (Name)

has property that abuts a private way in the Town of Barnstable, do hereby request, pursuant to MGL C 187 §5 that the Town of Barnstable Department of Public Works construct, install, maintain and operate a subsurface sewer main and water in said private way to provide municipal sewerage and upgrade waterlines to said premises for the general benefit of the Town of Barnstable.

Further if the request is accepted, it shall constitute my irrevocable permission for the Department to enter upon said way for the purposes set forth herein.

Executed this \_\_\_\_\_ day of 2009.
